YOUR CAREER

Students who are not sure as to what program they wish to pursue at the college level will find the General Arts Associate Degree programme a wonderful way to explore career programs and to experience college life. Graduates enter the work world with excellent life skills, or go on to earn full Baccalaureate Degrees. General Arts and Science Associate Degree students often move into other college diploma programs.

PROGRAM DESCRIPTION

The General Arts and Science Two-Year Associate Degree program is designed for the student who wishes to receive a general education in the Arts and Sciences as well as explore other college programs. The Associate Degree allows students to graduate with a combination of courses from two subject areas in the major. Courses may be selected from a wide range of disciplines to meet individual needs. Areas of selection include the Humanities, Social and other Behavioural Sciences, and courses in Technology and/or Business Studies. .

ACADEMIC OPPORTUNITIES

Graduates utilize the skills acquired in the program to enter the working world or pursue further education. Educational opportunities include:

- Transferring to another diploma program.
- Applying to a General Arts and Science university Baccalaureate program.
